

## **Sanghi Industries wins another Environment Award**

The Company was awarded first prize in 'Best Overall Performance' in Cement category at 22<sup>nd</sup> Mines Environment & Mineral Conservation Week 2014-15

**February 23, 2015:** Sanghi Industries Ltd hosted 22<sup>nd</sup> Mines Environment & Mineral Conservation (MEMC) Week 2014-15 under the aegis of Indian Bureau of Mines, Udaipur Region. MEMC week is celebrated for systematic and scientific development of minerals with protection of environment with active participation of mining fraternity of Cement/Soda Ash/Refractory/Bauxite/Chalk/China Clay etc from all over the Gujarat.

In the above function, mines were investigated under 6 various groups and were given awards under various categories. Sanghi Industries Ltd was awarded first prize in 'Best Overall Performance' in Cement category.

Shri J. R. Chaudhary, Controller of Mines (North Zone, Ajmer) was the chief guest at the concluding day of the function, which was organized under the guidance of MEMC Council. Other dignitaries present at the event were Shri M. V. Ramanna Rao, Executive President and Unit Head, Ultratech Cement; Shri B. N. Gohil, Executive Director, Sanghi Industries Ltd & President of Organising Committee; Shri Pappu Kumar, Vice-President of Organising Committee and Shri. M. K Choubey, Secretary of Organising Committee.

Mr. Aditya Sanghi, Director, Sanghi Industries Ltd said, "The Company has always been in the forefront of environmental protection through the implementation of scientific means. It is particular about its concern for controlling the generation and liberation of fugitive dust at various sources in the mines and cement plant. Time and again the company has proved its operational efficacy and the same has been recognized and honored by institutions of repute and the state and national government."

For the development of a nation, exploitation of mineral wealth is essential keeping balance between eco-system and development.

**About Sanghi Industries Limited:**

Sanghi Industries Limited has emerged as a major cement player in western India over the last few years. Company's 3 million tonnes per annum capacity plant in the Abdasa taluka of Kutch district in Gujarat is ranked as one of the largest cement plant at one location in India. It is one of the top 3 players in Gujarat and is now increasing its presence in Maharashtra and Rajasthan.

Sanghi Industries has several firsts to its credit: first plant in India to install cross belt analyzer for micro analysis of limestone to ensure consistent superior quality of cement. First to install stacker and reclaimer for uniform homogenizing of each raw material and the first plant to have 100% robotic control systems to ensure consistently superior strength and quality of operations. It is only Indian Cement Company to achieve Export House status in the first eight months of commencement of operations. First company in India to have a full fledged infrastructure, from day one, such as 63 MW Power Plant, Desalination Plant of 5500 M3 capacity, own jetty to cater the needs of sea route transportation and road network.
